Held to Answer.
Wm. Wren, who was arrested on the
charge of tollgate raiding, had a hear-
ing Friday and was held to the grand
jury in the sum of \$500, which was
given. The getekeeper, Terrill, swore
point blank Wren was the fellow who
shot at him.

Remember This.
When the good ladies send the box
to our soldier boys at Chickamauga,
the express company simply wiped
them off the earth, so to speak, with
the enormous charges made. It has
been very wisely suggested that
instead of sending such heavy boxes,
that each parcel be wrapped in heavy
paper, or pasteboard, and then placed
in one wooden box. This will save
much to the individual shipper and be
a long ways safer.

I would like to do your plain sew-
ing and dyeing. Mrs. Ophelia Dunn.

Dr. W. R. Penny has raised a com-
pany of cavalymen at Stanford and
hopes to get in on the next call. If he
can lick Spaniards with the rapidity
with which he yanks teeth the war
will not last long after Doc gets start-
ed.

Are Our Men Cowards?
Lieut. Morton Gaither and Serg't
Stair, of the Second Kentucky Regi-
ment, were here this week endeavor-
ing to enlist more men for the regi-
ment. They got two men. This looks
pretty bad, when we consider the
number of able-bodied men who have
nothing whatever to prevent their en-
listing. The Lancaster company needs
twenty-five men. Transportation and
everything is furnished.

Back to Fugysim.

For some unaccountable reason, the
mail is not now thrown off Saturday
night's train. Postmaster West tells
THE RECORD he does not know why,
unless it is because sufficient demand
has never been made for the mail.
Nine-tenths of the patrons of the Lan-
caster office want this mail and it
should be put off. Because three or
four would-be moguls don't want Sun-
day mail is no reason why the majori-
ty should be kept out of their's.

Opening Ball.

The grand opening ball at Crab Or-
chard Springs will be given this
Thursday, evening. Mr. Hofmann,
the popular manager, writes THE RE-
CORD to extend a cordial invitation for
all friends hereabouts to come over.
The resort has undergone a thorough
overhauling and this season will be
the banner one. A more lovely sum-
mer resort than Crab Orchard Springs
does not exist.

Too Much Taxes.

A meeting of the stockholders of the
Farmer's Bank & Trust Co., Stanford,
has been called to consider the advis-
ability of the institution going into
liquidation. In speaking of the mat-
ter the Interior Journal says the war
tax the bank will have to pay will be
not less than \$750 and the State,
county and municipal will run the
amount to \$4,561.25. This with the
other expenses foot up \$5,311.25, which
will have to be made before a dividend
is considered.

The Alpha.

Mrs. Lyd A. Murphy, who resides at
Hammack, showed us a copy of the
Alpha, a paper published in Lancaster
in the year 1877. The Alpha was pub-
lished by Armp. B. Elkin and, judg-
ing from the liberal advertising mat-
ter in its columns enjoyed a good pat-
ronage. It contains the names of
many citizens who, although dead
and gone, are still well remembered
by our elder citizens. Mr. Elkin, the
editor, is now filling a prominent po-
sition in the Courier-Journal job print-
ing department at Louisville.

Stanford Contest.

Although the rains descended and
the floods came, a large crowd attend-
ed the contest at Stanford Friday
night. The prize was won by Miss
Halle Hopper Kirtley of Cincinnati,

Our information is that the present
wheat crop is more or less infected
with smut. What causes smut? Will
be the question asked so often but no
satisfactory answer. The important
thing now, the best method of hand-
ling smutty wheat. First, harvest it
when "dead ripe" and thresh from
sheek or stack it when perfectly dry.
In stacking wheat contaminated
with smut, will suggest sprinkling of
fine lime every two or three rounds, it
will answer three purposes: 1st, will
prevent weevil; 2nd, will destroy smut
smell; 3rd, have a tendency to dry or
harden the smut ball.

For convenience use a burlap sack,
put a peck or half bushel fine lime in
it by striking it on the wheat, the lime
will sift out in sufficient quantity.
This takes but little time but will save
you money and probably make your
wheat merchantable. In stacking
wheat where there is no smut, sprin-
kle salt every two or three rounds in
stacking, it is a sure preventive of weev-
il and leaves the straw rick in fine
condition for cattle but, under no cir-
cumstances use salt where there is
smut, as the tendency of salt to mois-
ture would be detrimental to smutty
wheat.

We are pleased to announce to our
friends and customers we are in the
wheat trade and request that you re-
member us before selling. We promise
as heretofore in our dealings, top
prices, and will be consistent in prices
and will be governed daily by the
markets for legitimate business.

Present for Miss Bradley.

The presentation of the silver water
service by the Woman's Christian Tem-
perance Union to Miss Christine Brad-
ley took place Monday afternoon at
the executive mansion at 3 o'clock.
Mrs. Beauchamp, President of the W. C. T. U., made the introductory ad-
dress in well chosen and touching
words on the choice of the fair young
woman in christening the ship with
water, and introduced Col. Bain, who
spoke standing in front of the beauti-
ful present, which bore the following
inscription:
"Woman's Christian Temperance
Union of Kentucky to Miss Christine
Bradley as a tribute to her for loyalty
to conviction in christening the battle-
ship Kentucky with water March 26,
1898."

At the conclusion of Col. Bain's
speech Miss Bradley arose and, turn-
ing to Col. Bain, responded as follows:
"I sincerely thank the Woman's
Christian Temperance Union for this
testimonial. The spirit which in-
spired your action is of far greater val-
ue than the handsome gift. The cause
in which you are enlisted makes it the
cause of humanity, and being so car-
ries with it the blessing of God."
"If my action in christening the
Kentucky should stay in the slightest
degree the march of alcohol or if it
should be instrumental in saving the
life of one of our brave sailors or
prevent one tear from coursing down
the cheek of wife, sister or mother, I
am more than repaid."
A handsome dinner was served to
the guests and visitors.

The Royal is the highest grade baking powder
known. Actual tests show it goes one-
third further than any other brand.

THE LOGAN DRY GOODS COMPANY

The Blue Grass Coming.

The Blue Grass Grocery Co., has
rented of Mrs. N. A. Thompson her
large store room on Richmond street,
and about next Wednesday will put
in a complete line of Groceries: Tin-
ware etc. This will be the first time
the company has in Kentucky,
Ohio and Indiana. They began this
business about four years ago, and it
is now no experiment, but an estab-
lished fact. They buy goods by the
car load and thus get greatly reduced
figures. Their sole aim is to please
their customers and give them the best
goods for the least money. The Lan-
caster store will be managed by Eph.
P. Brown.

Buckeye Fishing Club.

One of those fortunate enough to at-
tend tells THE RECORD that the "big-
gest" time he ever had was with the
Buckeye Fishing Club last week. This
club meets every year, and what they
do not have to tempt the appetite is
not worth having. Wednesday was
ladies' day, about one hundred people
being present. To use our inform-
ant's language, "they put the big pot
into the little one." The Great Cre-
ator never made better people than
those living in Buckeye, and nothing
affords them more pleasure than to do
something whereby they will add to
the happiness of friends.

Death of Ed Sparks.

Lancaster friends were greatly
pained on learning of the death of Ed-
win Sparks, which occurred at Nich-
olasville Sunday night. Mr. Sparks
was a nephew of Mrs. Margaret Marra,
of this city, and was a frequent vis-
itor to our town. In early life he spent
much time here and was a general
favorite among the young people. He
has been connected with the firm of
Cogar & Co., at Danville for some
time, and resided there until a few
weeks ago, when broken health forced
him to return to his former home in
Nicholasville. It would be diffi-
cult to find a more congenial and clever-
hearted boy than was Ed Sparks.
To know him was to be fond of him.
Although only twenty-nine years of
age, he had been engaged in business
for quite a while and enjoyed a reputa-
tion for splendid qualification, strict
honesty and fair dealings. He was
married about eight years ago to Miss
Eunice Hamilton, a lovely and accom-
plished Nicholasville girl, who, with
a sweet little daughter, is left to
mourn his loss. Lancaster friends ex-
tend heart-felt sympathies to them in
this, their great bereavement. Fun-
eral services were held Tuesday after-
noon and the remains interred in the
Nicholasville cemetery.

Rev. Sam Jones.

Rev. Sam Jones has been engaged
to appear at High Bridge on July 3rd.
As this great man's time is engaged
for a long time ahead, it is doubtful
if the people of Central Kentucky will
have another opportunity of hearing
him soon. The High Bridge Camp
ground, or the Palmsides, is now con-
ducted on a highly moral plane, and is
the ideal spot to go to for rest, recre-
ation and pleasure. No rough charac-
ters are permitted near the grounds,
and those attending are assured a
pleasant and profitable trip. Mrs.
Emma Buford Fristow has absolute
control of the grounds and meeting.
It is hoped many of her old Lancaster
friends and acquaintances will attend.

A Merited Compliment.

Many teachers who attended the ex-
amination, spoke in the highest terms
of Miss Eliza Lusk, the superintend-
ent. One lady told a RECORD rep-
resentative that she had attended ex-
aminations under the last four superin-
tendents, by two in Indiana, and also
stood the state examinations, but none
had been as systematic or as carefully
conducted as was the one recently
held by Miss Lusk. And here THE
RECORD desires to say that it has never
been more courteously treated by
any officer than it has by Miss Lusk.
When some people are given an office
they immediately think the newspa-
pers, and the public too, have no right
to ask for information, but the pres-
ent superintendent is free from any
such foul ideas.

Marriage of "Old Phil."

Capt. Phil B. Thompson and Mrs.
Allie W. Davis were united in mar-
riage at the bride's home in Harrods-
burg, last week. The ceremony was
performed by President John Aug.
Williams, the parlor being well filled
with relatives of the bride, and close
friends of both parties. The groom,
who is seventy-seven years of age,
dressed in the conventional broad-
cloth suit, looked much younger, and
the bride, who is just forty, and a fine
looking lady, looked very attractive
in a blue tailor-made traveling cost-
ume with hat to match. After being
showered with the congratulations of
those present the couple took a landau
for Burgin and went thence to Cincin-
nati for a brief honeymoon. Captain
Thompson is one of the foremost law-
yers in the state. He is a Mexican
and Confederate veteran, and among
those who witnessed the happy event
yesterday were three of his old war
comrades, Messrs. T. E. Phelps, J. C.
Robinson and Edwin Glare, who start-
ed from New Orleans to Mexico in
Capt. Thompson's company just fifty-
two years ago yesterday, the day of
his marriage.—Harrodsburg Democrat.

FOR CONGRESS.

McCREARY.—We are authorized to announce Hon. JAMES B. McCREARY, of Madison county, a candidate for Congress in the 8th Congressional District, subject to the action of the Democratic party.

THOMPSON.—We announce J. B. Thompson a candidate for re-nomination by the Democratic party for Representative in Congress from this 8th district.

NOTHING of importance has transpired in the war situation since our last issue, save the arrival of the American soldiers off Santiago. It took the transports exactly six days to make the trip from Port Tampa to Santiago. They anchored twenty miles out at the suggestion of Admiral Sampson, who wanted, if possible, to keep their arrival unknown to the Spaniards until all arrangements for landing had been completed. Within fifteen minutes after Admiral Sampson and Major Gen. Shafter had met, they were on their way to Acaceras, about twelve miles west of Santiago, where they landed and went a mile inland for a conference with Gen. Garcia. Gen. Sañter seems determined to lose no time. He vetoed the naval plan which called for further investigation of landing places. He opposed delay and guided by Gen. Garcia's knowledge of the country formed his plans for landing. He expects to have Santiago at his mercy within a week. No Spanish war ships were seen during the voyage. More troops will be dispatched to Santiago immediately, and, judging from the manner in which our officers are going at their work, they mean to wage the war to the bitter end.

Before our readers receive another copy of THE RECORD many desperate battles will have been fought. Our men know the dangers from fever and the heat, consequently they will make every shot count and fight like demons in order to bring the war to a close and get away from Cuba. The foregoing is the exact situation to date, boiled down to fit our limited space.

The old saying "Too many cooks spoil the broth" has been clearly borne out in this war. The trouble with getting our army in shape has all been caused by having too many bosses messing with affairs. Gen. Miles and old figure-head Alger, secretary of war, have been making faces at each other for a week or so, and matters have been delayed in order to give them a chance to spat at one another. The army would have been all right and had the war ended long ago had it not been for a gang of figure heads at Washington who wanted to "rubber-neck" into every proposed move. It would be a great blessing if some fifty or a hundred "heads of departments" could be dumped into the sea.

Gov. BRADLEY Monday issued a proclamation, and it is sincerely hoped that the people of Kentucky will do all in their power to comply with its requests. The proclamation in full is as follows:

"To the People of Kentucky.—While your brave sons are going and have gone to the front, at the risk of health and life, to defend the honor of the flag, avenge the murder of their brethren and assist the down-trodden and oppressed, it should not be forgotten that in many instances they have left families behind them who need and deserve your attention.

"It is suggested that organizations be formed in every county of the state for the purpose of looking after the loved ones of the absent soldiers and that immediate steps should be taken in this matter.

The "League of American Wheelmen" was in session at Lexington this week. The object of the "League" is not stated in the lengthy reports published, but we presume its organization without which the people of this country could not exist. The papers tell of how each rider "trained" for the races, the time he made, etc. Now this would not look out of place if Uncle Sam was not sorely in need of the services of these strapping fellows just at this time. Any man who can devote for forty hours a day to "training" for a bicycle race ought to be made to shoulder a musket and go to the front.

While the authorities are killing time trying to figure out plans whereby they will be personally benefitted politically, our brave boys have been almost roasting alive on the big battle ships in Cuban waters. The ships, stripped for action, are nothing but iron and steel. The baking sun, coming down as it does there, make them a veritable hell. If some of the powers that be could be placed in the position of our sailors for awhile it would bring about the joggling up which the Washington government so badly needs.

MEMBERS of the Louisville Legion have their noses turned up at Governor Bradley because the latter had a lot of old guns, etc., taken from their armory and returned to Frankfort. The Legion is a good organization but the citizens of Louisville have petted the boys until they are very much like a lot of spoiled children. As Uncle Sam now has these fellows under his control he will doubtless turn them across his lap and spank out some of their ten-year-old ideas.

HON. JOHN S. RHEA has been re-nominated for Congress in his district, and

it is said he will have no opposition. We do not care a blank whether he is for free silver, gold, woman's rights, or what not, he's a fair, square man and will stand by his friends. John Rhea is one of the very few politicians who will not lie to you. He's our friend and we hope he will have smooth sailing back into his seat in Congress.

HOK. DAVE COLSON will yet get to wear colonel's straps and lead a regiment of Kentuckians. Gov. Bradley has been notified that the fourth Kentucky regiment will be organized and orders for its mobilization are expected at any moment. The companies are already organized and ready to move immediately to Lexington and be sworn in. They are all from eastern Kentucky.

At the close of this war Dave Colson ought to keep his regiment in fighting trim to use on John D. White. He has knocked the old codger out with most every other weapon, but the latter invariably comes back. Probably a standing regiment will keep the Crested Jayhawk off Dave's poor bones.

The count to date shows that every town in the United States has a "boy" with Dewey at Manila. If all these stories were true there would be more "boys" at Manila than could be placed on the ships of the entire American navy.

THERE is enough display type in the average daily paper's headlines to set a jack-bill for every mule in the American army.

The Spanish gunners shoot with about the same accuracy with which the Louisville base ball club bats.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shillies fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. DR. DAVID LOGAN.

Gallant Soldier and Beloved Gentleman Passes Peacefully Away.

Dr. M. D. Logan died at his home near Danville, Saturday morning about five o'clock. Dr. Logan was blessed with remarkably good health through life, and it was not until within the last year or two that he began to fail. Several times during the last three months his condition was considered to be dangerous, but about two weeks ago he took a change for the better. This only lasted a short while and two days before the illness came, he began to sink rapidly. He was afflicted with a complication of diseases peculiar to men of his age.

Dr. Logan was perhaps the most widely-known man in Central Kentucky. He was born in Marion county, Ky., January 8, 1822. His father, Beatty Logan, was of the pioneer families. When a young man, he enlisted in Col. McKee's regiment for the Mexican war, and served with distinction. Later he read medicine under Dr. Huff-

man, at Stanford, graduated in 1850 at the Jefferson Medical College, Philadelphia. He immediately located in Lancaster, where he practiced his profession successfully until the breaking out of the civil war. He entered the Confederate army and was elected Captain of company I, Forrest's Cavalry, and was captured at Fort Donelson. After he was exchanged he was assigned to Morgan's command, being the senior Captain in Gano's regiment. Dr. Logan was captured in the famous Ohio raid and remained a long time at Columbus, O., but was exchanged before the close of the war.

It would be folly for this poor pen to attempt a eulogy upon the life of one so grand, so noble and so pure as Dr. Logan. His praises are sung by the lips of every one, rich, poor, saint, and sinner, who had the pleasure of his acquaintance. Holy Writ tells us that none are without sin, but if Uncle Dave had any corruption in him, no one on this earth ever had cause to know it. He was a gentleman of the truest type. He was one of the very few men who believed in, and carried out doing unto others as you would have others do unto you. It is customary when a prominent man dies to write a long obituary notice and recall his good deeds. In this case it is not at all necessary to follow this custom. The people knew Dr. Logan well, and nothing the most gifted writer could pen, or the most eloquent speaker utter could add one iota to his pure, sweet life. His memory will always be cherished. He was one man against whom absolutely nothing detrimental could be said. He had a deep sympathy for the unfortunate, and an utter contempt for rascality. He was blessed with an abundance of this world's goods, but unlike the majority of rich men, was ever ready and glad to relieve the wants and necessities of those in need. His acts of kindness were not proclaimed from the house-tops. His favors were bestowed in a quiet way. Dr. Logan did not belong to any church, though he lived a more Christ-like life than a great majority of those whose names are upon church rolls. In Dr. Green's remarks at the grave he said that ten or twelve years ago Dr. Logan wished to make a public profession of his faith in Christ, but was troubled by certain doctrinal difficulties of which his mind could not be relieved, but he never lost his interest in the matter. Recently he said to him that he had made a mistake in allowing anything to prevent his making such a confession as would let all the world know his true principles, and requested him to state for the comfort of his friends and as his last testimony to the truth that for years he had been a believer in Christ, that he died in that faith, and that his dying regret was that he had not, when in health, made this public confession.

The largest crowd ever assembled in Danville on a similar occasion followed the remains to the cemetery in that city Sunday afternoon. The ceremonies were in charge of the Masonic fraternity and Confederate soldiers. The latter held a short ceremony, conducted by Dr. Green. The Masonic fraternity, about one hundred strong, then formed an "oblong square" about the grave and the beautiful service was said by Mr. Henry G. Sandifer. The choir of the Presbyterian church sang several beautiful hymns, prayers were offered by Revs. Lynne and Saunders, and all that was mortal of Matthew David Logan was laid beneath the soil, there to rest until the arch angel's trumpet shall usher in the Resurrection morn. Peace to his ashes. L. L.

Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor, of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

S.S.S. For the Blood

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.

HOBBSON.

The following lines were composed by H. L., the twelve-year-old son of Rev. W. M. Kuykendall, pastor of the Fork church.

You may talk of brave commanders, And the wonderful deeds performed, But the greatest feat of the country Was accomplished by Hobbson.

With seven brave men he entered The narrow passage between the fleets; And 'twas here in the face of the Spanish guns He performed his wonderful feat.

After blowing up the old Merimac To impede the enemies flight, Into the ocean wild he plunged Amid the silent shades of night.

Seeing that to escape was impossible He swam to the enemies shore, Here he was taken as prisoner of war Perhaps his country e'er-nevermore.

Long may you live brave Hobbson, You and your brave men too, For in raising the accounts of brave men We read of no more brave men than you.

May your name go down in history As one who is loyal and true; One who did for his country What perhaps none other would do.

Every mother feels an indescribable dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger of the ordeal make its anticipation one of misery.

Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are avoided, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mother's Friend. It is a blessing to woman.

MENCKE ITEMS.—Mr. F. D. Spotswood has sold to Virginia parties the fast pacing gelding, H. P. Mason, by Hunter Wilkes. This is a first-class 4-year-old, and could show miles in 2:15 when sold. He goes to Martinsville, Va., where Mr. Everett Middleton will take him in charge to campaign with a number of others. E. J. Thialer, who made a judicious purchase of 10,000 bushels of wheat last year, sold the last of it—4,000 bushels—three weeks ago for \$1.00, delivered in Chicago, the cost of shipment and commission being 12 cents a bushel. In the last two weeks Mr. Thialer has bought 10,000 bushels of the growing crop at from 68 to 75 cents a bushel. Russell & Co., shipped 100 hogs to Cincinnati and sold out at \$3.85 a hundred, also 15 cattle which brought from 2:15 to 4:15 cents, and a double decker of lambs that were sold at 6 and 6 1/4 cents. They claim that they lost \$30 on the shipment.—Democrat.

The difference in the cost of growing twenty-five bushels of corn to the acre or fifty bushels is so slight that it need not be considered, but the difference in the value of the profit from growing it can be determined without very close figuring. The same thing holds good with every farm operation—in growing all sorts of crops, in raising common or well-bred stock.

There has not been a car-load of lambs shipped from this station this season. They are all taken to Danville for shipment via Cincinnati Southern to Cincinnati, and all the cattle are going to Danville for shipment. Now and then we have a car of hogs from here to Cincinnati, they would be taken to Danville for shipment, the only thing that prevents is the excessive hot weather, and hogs cannot stand the drive. We are reliably informed that one party who usually ships over the L. & N. has taken to Danville and shipped over 1,200

lamb up to the present. The L. & N. should look after this business, and not permit stock to be taken from their immediate territory to Danville for shipment, and should see that their shippers are fully protected in rates.

Nothing is relished by the fowls this time of the year, like cool, fresh water to drink.

The yards contain twenty miles of street, twenty miles of water troughs, fifty miles of feeding troughs, seventy-five miles of water and drainage troughs. The yards are capable of receiving and accommodating daily, 20,000 cattle, 25,000 sheep and 120,000 hogs.

MENCKE ITEMS.—Mr. F. D. Spotswood has sold to Virginia parties the fast pacing gelding, H. P. Mason, by Hunter Wilkes. This is a first-class 4-year-old, and could show miles in 2:15 when sold. He goes to Martinsville, Va., where Mr. Everett Middleton will take him in charge to campaign with a number of others. E. J. Thialer, who made a judicious purchase of 10,000 bushels of wheat last year, sold the last of it—4,000 bushels—three weeks ago for \$1.00, delivered in Chicago, the cost of shipment and commission being 12 cents a bushel. In the last two weeks Mr. Thialer has bought 10,000 bushels of the growing crop at from 68 to 75 cents a bushel. Russell & Co., shipped 100 hogs to Cincinnati and sold out at \$3.85 a hundred, also 15 cattle which brought from 2:15 to 4:15 cents, and a double decker of lambs that were sold at 6 and 6 1/4 cents. They claim that they lost \$30 on the shipment.—Democrat.

The difference in the cost of growing twenty-five bushels of corn to the acre or fifty bushels is so slight that it need not be considered, but the difference in the value of the profit from growing it can be determined without very close figuring. The same thing holds good with every farm operation—in growing all sorts of crops, in raising common or well-bred stock.

There has not been a car-load of lambs shipped from this station this season. They are all taken to Danville for shipment via Cincinnati Southern to Cincinnati, and all the cattle are going to Danville for shipment. Now and then we have a car of hogs from here to Cincinnati, they would be taken to Danville for shipment, the only thing that prevents is the excessive hot weather, and hogs cannot stand the drive. We are reliably informed that one party who usually ships over the L. & N. has taken to Danville and shipped over 1,200

lamb up to the present. The L. & N. should look after this business, and not permit stock to be taken from their immediate territory to Danville for shipment, and should see that their shippers are fully protected in rates.

Nothing is relished by the fowls this time of the year, like cool, fresh water to drink.

Owen county has only about ten percent of an acreage crop of tobacco plants set out. Growers have had a very backward season in that county.

H. P. Thompson, of Clark county, Ky., has completed the setting out of one million, one hundred and fifty thousand tobacco plants, requiring 177 acres to plant them.

There is more danger from summer killing of a newly sown field of bluegrass than there is from having it winter killed. The best time to sow, usually, is in September.

The largest stockyards in the world are in Chicago. The combined plants represent an investment of over \$10,000,000. The yards contain twenty miles of street, twenty miles of water troughs, fifty miles of feeding troughs, seventy-five miles of water and drainage troughs. The yards are capable of receiving and accommodating daily, 20,000 cattle, 25,000 sheep and 120,000 hogs.

The milk will sour in some of our pans, despite all our care and cleanliness. Sterilize the fresh milk by bringing it to just 155 degrees of temperature, and then cooling it. The butter will be just as good.

Let us fix in mind that sheep never crop a pasture but to benefit it. Moreover, climb over rocks and ledges where cows would not go, and almost every herb that grows suffices them for food.

There is nothing that will make the hair grow on a scar. The hair follicles are destroyed and that is the end of the hair. You may reduce the enlargements by applying equal parts of sweet oil and iodine twice a day and rubbing with the hand.

Sick headache, biliousness, constipation and all liver and stomach troubles can be quickly cured by using those famous little pills known as DeWitt's Little Early Risers. They are pleasant to take and never gripe. Stormes Drug Store.

LEAF.

E. W. Norris is quite sick this week. Corn is selling at \$2.00 per bushel in the crib here.

Farmers are plowing over their corn the last time.

Born to the wife of Alvah Palling a bounding big boy it is name Edward Dewey.

W. B. Adams has rented D. C. Pullins grist mill and will run to its fullest capacity.

Tom Walker has three or four hundred acres in wheat and he has four or five binders running.

Some of our farmers are cutting wheat this week, the yield will be good but there is some complaint of smut.

Mr. C. Shumate has a field that he has been cultivating in corn for fifteen years in succession and he says he has the best prospect for a bountiful crop this year. He seldom ever makes less than 12 barrels to the acre.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had good health for twenty years—I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, MRS. MARY A. BEARD, Claremore, Ark. For sale by R. E. McRoberts.

CITY ORDINANCE.

The City Council of the City of Lancaster, Kentucky, do ordain as follows:

SECTION 1. Unless otherwise provided by ordinance, the grading, paving, curbing, and the re-grading, recubing and paving of any sidewalk, or portion thereof, within the corporate limits of Lancaster, which the City Council may order to be so improved, shall be executed as follows: The grading shall agree with the pitch and grade of the sidewalk, with a sufficient depth below the curb to admit the sand or fine gravel and brick pavement being properly placed. When there is embankment the sides shall be sloped as much as may be necessary to sustain the pavement in position. At the outer edge of the pavement and supporting it, shall be laid a line of curb stones not less than three inches in width, and each stone shall be at least two feet in length. Curb stones shall in all cases, have a full square joint not less than fifteen inches deep. The curb stones shall be tumbled down to a uniform straight line for a depth of two inches below the top on the inner side, so as to make a true and neat joint with the brick paving hereinafter specified. Curb stones shall be of good, hard limestone, free from flaws, dry seasons or cracks. All curb stones are to be laid true to line and grade. The material excavated for placing curb stones shall, after the stones are set in position, be placed in layers and thoroughly rammed. The brick pavement shall be formed of good, sound hardburned well-finished, whole paving bricks, and laid on a

bed of sharp sand or fine gravel, thoroughly free from any admixture of earth, and four inches in depth. The pavement shall be laid with the usual bond (Herring Bone), and truly and neatly jointed to the line of the curb stones. When laid and inspected the pavement shall be covered with sharp sand or fine gravel. No broken or irregularly formed or soft brick shall be used. The pitch of the sidewalk when finished shall be three inches from the inside edge to the outer edge at the curb. Around the public square no sidewalk shall be less than twelve feet wide; on Danville, Richmond, Stanford and Lexington Avenues, from the public square to the second alley removed therefrom all sidewalks shall be not less than eight feet wide; all other sidewalks shall be not less than six feet wide.

SECTION 2. All sidewalks in front of the property of any person or persons, whose business necessitates the crossing thereof with wheeled vehicles, shall have a roadway either of brick placed on edge, or of stone or flagging, extending the entire width, of suitable distance apart. Where flagging is used, each stone composing the flagging shall be not less than three feet six inches long, fifteen inches wide and eight and one-half inches deep, and the space between the flagging shall be paved with brick placed on edge; and in all cases provided for in this section, the work shall agree with the pitch and grade of sidewalks adjacent.

SECTION 3. The expense incurred in making and repairing sidewalks and curbing shall be paid by the owners of lands fronting and abutting thereon, each lot or portion of a lot being separately assessed for the full value thereof, in proportion to the frontage thereof to the entire length of the whole improvement, not exceeding a square, sufficient to cover the total expense of the work; but the owners of such property shall have the right to make such improvements, if they prefer doing so, instead of paying for same. Whenever any expense or cost of work shall have been assessed on any lands as herein provided, the amount of said expense shall become a lien upon said lands, which shall take precedence of all other liens, and which may be enforced by the contractor or city in accordance with the provisions of the Code of Practice.

Louisville and Nashville Railroad Co. Will Restore One-Half of the Cut Made in the Employees' Salaries.

LOUISVILLE, Ky., June 22.—The Commercial Wednesday says: Beginning July 1 the Louisville & Nashville railroad Co. will restore to its employees one-half of the cut made in their salaries on August 1, 1893, the panic year. This announcement will bring joy to the hearts of the many thousands of women and men who draw money for services from the L. & N. It has also been decided that no dividend on the company's stock will be declared, the management preferring to give its army of employees the benefit of increased earnings. With a continued improvement of business, however, the company will be in a position next year to declare dividends and also advance wages to the extent of the remaining portion of the cut. It is estimated that the restoration of one-half the cut made in salaries will cost the company fully \$500,000.

The Gerrymander Invalid.

FRANKFORT, Ky., June 22.—The court of appeals, in a decision Tuesday, holds the Third appellate-district gerrymander act invalid. The opinion is by Judge Guffy, and says that the act is in conflict with section 100, which provides that judicial circuits may be redistricted only every six years. Suit testing the validity of the act was brought by Hon. C. W. Lester, of Whiteley county, who, it is practically certain, will be the republican nominee in that district.

Saviors of Mystery.

LOUISVILLE, Ky., June 22.—The body of an unknown man was found on the river bank at the foot of Market street Tuesday morning. While the body was evidently placed there to give the impression that it had been cast up by the waves, there was nothing to indicate that it had been in the water. The man had been dead a week, and his body was so decomposed that it is impossible to say whether he met death by foul means or from natural causes.

Out of these visits grew the reconciliation of the parents and the remarriage.

HALF HOUR'S WORK.

Negro Catch Gains, the Assistant of a Little Girl, Taken From Jail at Glasgow, and Hanged.

GLASGOW, Ky., June 17.—At 1 o'clock Thursday morning 50 men rode into Glasgow, proceeded to the jail, forced an entrance by overpowering Jailer Carter, and taking Caleb Gaines, 18, the Negro assailant of little Ethel Allen, white, from his cell, dragged him out and lynched him in the public square.

The men, some of whom were masked, had the assistance of a trusty in the jail, who opened the cell doors for them. The mob had previously taken Jailer Carter's keys from him at the rear door of the jail.

A rope soon encircled Gaines' neck, and screaming, praying and struggling by turns, he was hauled along to the public square.

The entire proceeding from the entrance of the mob to the accomplishment of its design, was but the work of half an hour.

Before leaving town the mob fired several hundred shots with the threat that if anybody should cut the boy's body down before 12 o'clock noon he would meet with rough treatment.

Lexington will again be used as a rendezvous station. First Lieut. John W. LOUISVILLE, Ky., June 21.—The physicians of the city hospital are puzzled over a peculiar case of blood poisoning. Frank Collins, the laundryman of the institution, was bitten on the hand a few days ago by a common house fly while in the dead room. Collins felt the sting and brushed the insect off. In a few minutes the hand began to swell. It was soon twice its normal size, and the swelling communicated to the arm. The hospital physicians at once began treatment, but the patient is not yet out of danger. They all agreed that the fly collected poisonous matter in the "dead" room, which was transmitted to the victim's hand.

FRANKFORT, Ky., June 18.—The court of appeals rendered a decision in the case of the Western Union Telegraph Co. against Auditor Stone, holding that corporations which pay taxes on both franchises and tangible property to not pay both directly into the state treasury.
